中國人民大學-張o卉-白雪紛飛的上課路

北京市作為中國北方的城市，下雪的機率很小，當時是天氣正在慢慢變暖的三月，一場突如其來的大雪，讓大家又驚又喜，卻也在路上冷得發抖。在前往上課的路上，我偶然拍攝了這白雪皚皚的一幕，萬物皆鋪上了一層雪，是在台灣無法經歷的場景，而照片右方可以看出是棟老舊的建築物，也能感受到中國人民大學不一樣的美麗。

As a city in northern China, the probability of snow in Beijing is very low. At that time, the weather was slowly warming in March. A sudden heavy snow surprised and delighted everyone, but also shivered on the road. On the way to class, I accidentally shot this snowy scene. Everything is covered with a layer of snow, which is a scene that cannot be experienced in Taiwan. On the right side of the picture, you can see that it is an old building, and you can also feel the different beauty of Renmin University of China.
