學校簡介  
Introduction

Since its inception, Toyota Technological Institute (TTI), has adopted as its founding philosophy a motto, "Respect the spirit of research and creativity, and always strive to stay ahead of the times." In order to cope with a variety of global issues ahead of us and also to maintain our technological competitiveness, the promotion of advanced research and education is indispensable. By taking these factors into account, Toyota Motor Corporation under the leadership of Eiji Toyoda decided in 1977, its 40th anniversary year, to set up a very unique university of technology as one of its societal contributions.

In 1981, TTI was opened and started to offer unique educational program, based on TTI's founding philosophy. Though TTI accepted initially only students with industrial work experience, the door has been opened since 1993 to new high-school graduates that now account for 80-90 percent of those admitted. The engineers and researcher educated in TTI are now playing active and important roles in various fields of technology. A sister institution, TTI at Chicago, was set up in 2003 with focus on basic computer science. Now, a number of cutting edge research works are conducted at TTI and TTI Chicago.

學期制度  
Academic  
Calendar

秋季 Fall Semester

春季 Spring Semester

September 2022 - January 2023

April 2023 - July 2023

**Application deadline :**

**Application deadline :**

Four months prior to the intended arrival date

Four months prior to the intended arrival date

交換人數  
Quota

Up to four students per year for short-term research exchange program (up to one year), in which TTI faculty members provide research supervision

交換資格  
Eligibility

Both undergraduate & postgraduate

註冊繳費  
Tuition Fee

Exempted

語言條件  
Language Requirement

**NCHU Outgoing language requirement (TOEIC: 670 or equivalent)**
