| 學校簡介<br>**Introduction** | Mapúa University is the premier engineering and technological school of the Philippines. It envisions itself to be among the best universities in the world, unceasingly fostering its long tradition of leading-edge excellence in various fields of studies, such as Engineering and Sciences, Architecture and Design, Information Technology, Business and Management, Communication and Media Studies, and medicine and health sciences, and providing students with a learning environment that will make them globally competitive.<br><br>Offering locally and internationally accredited academic programs and other developmental programs that provide international learning opportunities to its students, Mapúa education meets global quality standards of the professions for which it prepares its graduates. Mapúa has the large number of engineering programs (Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Electronics Engineering, Environmental and Sanitary Engineering, and Mechanical Engineering; Information Technology) recognized as Centers of Excellence by the Philippine Commission Higher on Education.<br><br>The University's strong academic foundation ensures its graduates are of high caliber taking lead roles in the global arena. To date, it has produced 391 topnotchers across 11 of national professional licensure examinations since 2000. Its students are also prepared for the world of practice through their exposure to international on-the-job trainings, and research and development undertakings, which are achieved through the University's continuous forming of international linkages with prestigious companies and universities. |
