'Studying online from British Columbia, Canada, to Japan meant that I did not need to travel, take time off work, or leave my family at home. The first summer program I took in 2021 was a beginner program that lasted for 3 weeks. In this time, I learned the basics of Japanese vocabulary and sentence structure, practicing what I learned with Japanese TOYO students, making many friends. The second program I took was also a beginner program that lasted 12 days. This program was more intensive, with multiple sensei's each focusing on teaching a different topic, teaching me more about Japanese culture. These lessons, though challenging, allowed me to be able to better my Japanese abilities overall, letting me further form long lasting friendships with TOYO students' -

Kodiak Cheung, Kwantlen Polytechnic University, Canada.
